

**Why go to Nevada to precinct walk?**

As a swing state, Nevada is *in play* with Romney and Obama in a virtual dead heat. California Democrats plan to canvas for Obama in Nevada. Do we let them get the upper hand by doing nothing?

**Can't I just make phone calls?**

There will be myriad opportunities to phone bank and we will need your help with that as well, but research shows that face-to-face interaction with voters is a sure bet in turning out the vote and changing minds.

**Does this mean we are giving up on California?**

Absolutely not! We are helping to get out the vote in Nevada in addition to California, not instead of it.
