What a fabulous slate of officers that our nominating committee has chosen for the 2020-21 term for Southern Monterey County Republican Women Federated. Thank you to committee chair, Mikel Ann Miller along with Barbara Wellong and Erin King and thank you to the nominated officers for answering the call to serve our club. The election of officers will be held at the November 5th meeting and installation will be at the December 3rd Christmas Party meeting. The 2020-21 years promise to be exciting and invigorating with the Donald Trump reelection campaign and the restructure of the California Federation of Republican Women. Our club will be part of Region 5 that consists of clubs from Santa Cruz to Ventura along the California Coast. It will be enjoyable to attend meetings of other clubs in our Region and meet many new fellow Republican women. View From The Edge Of The Crowd by Lee Schell

Nothing piques a reporter's interest more than when they suspect someone is trying to hide something. It happened with me many times during my over 30-year career in the broadcast news business. One example is when Hewlett-Packard Corporation aggressively sought to purchase Compaq Computers and then CEO Carly Fiorina refused to take my calls and almost [but not quite] barred me from HP news conferences. I eventually found out that Fiorina planned to buy Compaq and then shut it down, putting over 15-thousand Compaq employees out of work. I told the world over KGO radio and the secret was out.

BREITBART
B

Along comes the Planned Parenthood scandal a few years later when a group of journalist affiliated with the Breitbart News organization took hidden cameras into meetings with Planned Parenthood management and recorded them admitting to the sale of body parts of aborted fetuses. Fast-forward to the election [yes, ladies and gentlemen, Donald Trump WAS legitimately elected President Of The United States Of America]. The main-stream media outlets, assuming it was a done deal that Hillary would be the next president, were shocked and dismayed when the Electoral College votes began piling up for Trump. When the smoke of this election cleared, we began to see the end of trustworthy journalism as we knew it.

Aggressive reporters, now calling themselves Project Veritas, (<https://www.projectveritas.com/>) are beginning to infiltrate news organization to expose the biased agendas of the people who run and staff these so-called news outlets. CNN staffer Cary Poarch managed to smuggle a tiny, hidden camera into the CNN news operation and record comments about the election of Donald Trump and the Trump administration made by his CNN colleagues. He even recorded many of the daily conference calls made to CNN staffers by CEO Jeff Zucker.

PROJECT
Veritas

It became clear, by watching these videos and listening to the phone calls, that if your politics are "center", center-right, or, heaven forbid, Republican...you are not welcome at CNN. There is not enough space here for me to outline all of the political bias recorded at CNN but there is clear evidence in these surreptitious recordings, that CNN is working, full out, to defeat Donald Trump in 2020 and every day CEO Jeff Zucker is giving his production and on-air crew ideas on how to boost Joe Biden's or any other Democrat Presidential candidate's chances of defeating the current president. In addition, CNN has been given marching orders to keep hammering the Impeachment idea to weaken Trump before the 2020 election.

This is just CNN. Veritas has underground reporters in MSNBC and the other *alphabet* news networks and what we are seeing at CNN is just the tip of the iceberg. The only place you will see this Project Veritas information reported will be on Fox News so if you want to stay plugged into this story you'll have to go directly to the Project Veritas website, but make no mistake: the days of trusting what you see and hear on television newscasts are over!

AMERICANISM obtained from on line searches

When the flag is raised or lowered as part of a ceremony and as it passes by in parade or review, everyone, except those in uniform, should face the flag with the right hand over the heart. The U.S. flag should never be dipped toward any person or object, nor should the flag ever touch anything beneath it. - *Hugh Talman-pbs.org*

CFRW 2019 FALL CONVENTION

Republican Women from all over California convened in Bakersfield over the weekend. A total of 340 attended and 97 clubs were represented to vote on Bylaw changes, elect officers for 2020-21 and to celebrate the 95th Anniversary of California Federation of Republican Women. SMCRWF sent 4 members to represent our club, Pres. Karen Leonhard, 2nd Vice Pres. Jeane Errea-Mills, Secretary, Kathy Forgnone and Donna Rappaport. Our club had 3 delegate votes at the Convention. Nancy Wofford, candidate for Regional Director in Region 5 was elected. The vote to raise the CFRW Per Capita fee for membership failed. Prior to the CFRW vote, however, the Per Capita fee for membership to NFRW passed at the NFRW Convention in September. Membership Chair, Dorothy Errea will address this issue at our November 5th meeting and in the December newsletter. Our club was honored to receive the Bronze Achievement Award from National Federation of Republican Women and a Certificate of Appreciation for outstanding participation and lasting contribution in Caring For America 2018-19 from CFRW. Congratulations to Cindy Wagner, chair in 2018, Gail Chaney 2019 chair and especially to all of our members who participate in sending packages to the Troops and Christmas gifts to children of the military at Ft. Hunter Liggett. Ken Starr was the featured speaker at the Convention and he signed copies of his new book, *Contempt, a Memoir of the Clinton Investigation*.

LEGISLATIVE NEWS *Allison Olson, CFRW Advocate*

Governor Newsom's Bill Action

It was a tough week for Californians in the north state. With PG&E initiating the largest blackouts in California history, many Californians are remembering the recall of Governor Gray Davis and the events leading up to that. But the PG&E crisis didn't stop Governor Newsom from taking action on many bills still left on his desk. The Governor still has until October 15th to either sign bills or veto them. Bills with no action by the Governor also become laws. Here is what has been signed or vetoed over the last two weeks-

AB 5- SIGNED: This bill severely hampers our growing gig-economy in our state, by mandating millions of independent contractors be considered employees, according to the Dynamex Decision equation. But, if you were one of over 30 industries with the money to lobby the Democrat legislative majority to exclude your business, they happily complied. Except for Uber, Lyft, Door Dash, and other major gig-economy players. This is because the Democrats in the legislature do not like the inability to regulate and make money for the state off these giant businesses. But who really gets hurt is the worker, but the Democrats don't seem to mind that. People working as independent contractors for businesses like Uber and Lyft need these second, sometimes third jobs just to make ends meet and afford to live in California- another failing of 40 years of Democrat Legislative rule.

AB 310- SIGNED: Thanks to Assemblywoman Nancy Skinner, felons will now be allowed to serve on our juries.

AB 392- SIGNED: Our law enforcement officers are already under deep pressure and scrutiny in this new era, but AB 392 puts their safety and ours at risk by changing the "use of force" law from reasonable to necessary. Officers need to make tough, split second decisions everyday to keep us and our communities safe. This law only makes it more difficult for officers to decide what is necessary and allows the suspects to flee, making the public potential targets in the process of escape.

AB 792- VETOED: This bill would have imposed civil penalties on beverage companies if their plastic bottles do not comply with post-consumer recycled plastic regulations mandated by 2030. Beverage companies would have been mandated to produce at least 50% of recycled plastic containers or face big fines.

AB 891- VETOED: This bill would have allowed people to sleep and live out of their cars in cities of populations over 300,000 in specified, mandated areas. Called, "The Safe Parking Program", which actually just sounded like a public safety nightmare.

AB 1482- SIGNED: Even though voters struck down the rent control proposition last election, Governor Newsom and Legislative Democrats think they know better than the voters, so they passed this version of rent control anyway. Now, yearly rent increases will be limited to 5% over the next decade.

AB 1505- SIGNED: This bill inhibits a charter school's ability to appeal decisions made by the county boards of education to establish or renew a school's charter.

SB 1- VETOED: SB 1 would have rolled back Trump Administration's EPA regulation easements to the Obama Administration. This would have severely undermined the work of farmers, water districts, and environmentalists, who had previously reached voluntary agreements, particularly in the Central Valley. Luckily Governor Newsom, who worked to facilitate some of those agreements, vetoed this blatant attack on President Trump's environmental regulation cutbacks.

SB 24- SIGNED: Now abortifacients are readily available on all California public college campuses.

SB 127- VETOED: This bill would have diverted even more highway rehabilitation funds from our roads and use it for bike paths, pedestrian walk-ways, and transit upgrades. Luckily the Governor didn't want yet another gas tax fraud on his hands and vetoed this bill.
