**Republican Women AND Men Are Cordially Invited!**

**We Welcome Special Guest Speakers:**  
**Preston Bernardi and Bryan Green**

This month, we have a Dynamic Duo! We all worry about the future of America, and about the type of people that will run our government. Well, come meet and listen to these two young men, and your faith will be restored! **Preston Bernardi and Bryan Green** present a unique look into the conservative and political views of their generation. Get a glimpse of the future leaders of America. This is a rare opportunity for our club to hear and discuss with the younger generation, topics such as the Republican Party, the concept of conservatism, taking control in abusive audiences, and so much more.

Preston and Bryan are members of **Junior State of America**, an organization that provides opportunities for young people to attend summer programs in Washington, DC., where they learn conservative leadership, and learn how to lead others to be prosperous and effective. They participate in debates on many political subjects. Preston is currently working with Rudy Peters' campaign for Congress. The Junior State of America (JSA) was created by and for young people interested in what happens around them - from politics - to how government works - to contributing to their community. Since its founding in 1934, JSA has served as a place where students build leadership skills, learn civil debate, and strengthen their engagement through volunteering and activism. More than 500,000 students have graduated high school as more active, informed members of their community as a result of their participation in JSA.

My name is Preston Bernardi. I am 16 years old and attend Amador Valley High School in Pleasanton, California. JSA is a nonpartisan organization, allowing all backgrounds, beliefs, and political and religious ideologies to take part. My activities involve football and track & field. My personal hobbies include hiking, shooting, reading, and political/historical research, and JSA. As of right now, I am helping future Congressman Peters with his campaign. I have always had an avid interest in politics and debate, being a Republican in California only fuels the fire!

My name is Bryan Green: Outside of JSA, my hobbies include hunting, fishing, discussing alternative history and the future, shooting, and chasing heights. A lot of my hobbies take me outside - one of my main goals is to visit all 60 U.S. National Parks. So far I have been to 17, with that number on track to surpass 20, by years-end. Road trips only come four or five times a year, though. When I'm not on the road, I spend my free time with friends - if no one is free, I'll settle for online forums. You can look for me around town with my friends, but if I'm nowhere to be found, there's 330 million acres of NPS and BLM land in the country that I might be on.
