QUOTE OF THE MONTH

"Even brief reflection on the meaning of the flag fills the mind and the heart with thoughts of our land and our heritage of liberty purchased at great cost by generations of Americans. Our flag was battle-born, fashioned during the struggle that won us our independence and gave bright hope to a world long oppressed."

Ronald Reagan - Proclamation 5664 -- Flag Day and National Flag Week, 1987

View From The Edge Of The Crowd by Lee Schell

I am sick and tired of being lied to! I guess it's my 12-years of parochial school and my Catholic upbringing that set me up for all of this disappointment. I was taught that a major sign of your character was that you told the truth no matter what and that someone who lies to you is not trustworthy. So now, every day, we are being routinely lied to by our government, by the Department Of Justice, by our healthcare system, by American corporations and especially by our so-called news media.

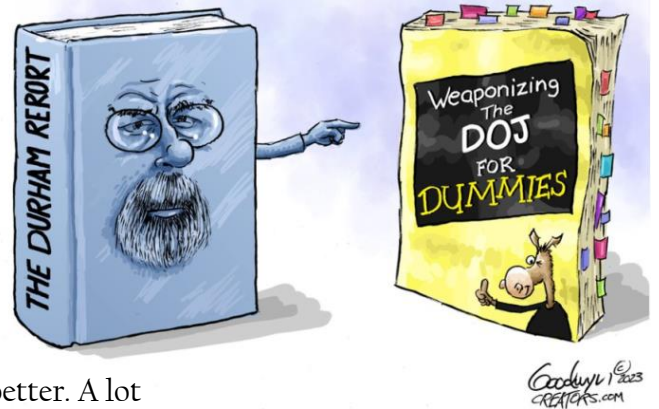

For almost three years our federal, state and local governments restricted our movements, kept our kids out of school, made us wear masks, kept us six feet apart and in some cases, ruined our lives...all because of what we were told was a medical emergency. The CDC and the FDA and all of those other alphabet agencies told us the vaccines against Covid-19, which have NEVER been subjected to normal drug screening, were safe and effective but, in fact, are killing people and are actually making it easier to catch what is turning out to be just a nasty, respiratory infection.

American corporations, which are making billions of dollars off of these lies, are laughing all the way to the bank if the bank is still solvent despite us being told our banks were safe and properly regulated. We are learning, thanks to Republicans who now have control of the House, that our Justice system including the FBI has been weaponized against us. Saddest of all, our news outlets, which are supposed to be objective and warn us when these governments and corporate powerhouses are trying to deceive us, are cheering on a left wing political agenda and totally ignoring much of the truth.

I could fill up this entire newsletter with all of the lies and deceit of which the average person is the target. It's also scary what we are *not* being told. If news outlets covered the hearings on the FBI at all, the narrative was that it was just a few bad apples at the top and they are already gone so...no big deal. There was literally no mention of an eight page comment from Supreme Court Justice Neil Gorsuch attached to the Title-42 bill sent back to the D.C. Court Of Appeals, which outlines his thoughts on how the American public is being "gas lighted" by our governmental and corporate entities.

Governments crumble when leaders become concerned only with their own ambitions and their own realities. George Orwell said it best in his novel "1984": "Once you are separated from truth everything becomes a cruel game. Ordinary citizens don't have a chance. Lies and bad government go together." We need to separate the lies from the truth. That takes a fair and objective news media. They are supposed to be like referees in a football game, not joining the play for one side or the other.

During the 2016 presidential campaign, Hillary Clinton talked about the "Great Reset." Well, the great reset was Donald Trump and he really shook things up...much for the better. A lot of Republicans wanted a better *acting* president but Trump got things done.

We have a chance to clean out all of these liars, cheats and just plain weirdos in the 2024 election. We keep the House...retake the Senate and get rid of Biden and Harris and all of that riff raff in the White House and start restoring TRUTH as our way of life.

IN CASE YOU MISSED THE MEETING

The May meeting was run by Second Vice-President Dorothy Errea. Darcia Stebbens gave some infuriating samples of voter fraud. It was an eye opening and upsetting talk.

PRESIDENT'S MESSAGE

The 2024 election gets more interesting every day. We have some strong conservatives running and this is before DeSantis is officially in the race. The real question is will it matter who Republicans put forward. We have seen how whistle blowers for reporting fraud in the FBI and people are dismissed as radical when vote mishandling is reported. Well enough of the pessimism on to some happy news. School is almost over and Father's Day is just around the corner. Summer is coming on strong and fast. Oh and we will be taking a break for July. Vacation for all!

SALINAS VALLEY FAIR

The Salinas Valley Fair was lots of fun this year. Many thanks to Arlene Azcona for signing up 19 regular members and four associate members to work in the booth. We collected \$57.00 to help with the mailing of troop packages and best of all we registered three new voters for the Republican Party. Several young people visited our booth and were ready for information about the Republican Party. Also, thanks to Monterey County Republican Headquarters for sponsoring the fair booth. We also appreciated the bottled water donated by Mayor Le Barre for the booth volunteers. The booth was a success thanks to all the volunteers.

CAPITOL UPDATE #19 - May 18, 2023 Submitted by the CFRW Legislative Analyst Committee

Theresa Speake, Karen Contreras, Lou Ann Flaherty and Elaine Freeman

There is a list of proposals dealing with police changes, including declaring election day a paid state holiday, restoring voting rights to all formerly and currently incarcerated people and implementing rent caps in historically redlined neighborhoods. The proposals are far from implementation. By the way, it is estimated that to implement the recommendations would total \$500 billion.

ACA 10 Fundamental Human Right for Housing – The California Constitution enumerates various personal rights, including the right to enjoy and defend life and liberty, acquiring, possessing, and protecting property and pursuing and obtaining safety, happiness, and privacy. This measure would declare that the state recognizes the fundamental human right to adequate housing for everyone in California. The measure would make it a shared obligation of state and local jurisdictions to respect, protect, and fulfill this right, by all appropriate means. This will be interesting to watch as it will be on the November 2024 ballot. Does it mean that state and local governments must provide housing including constructing that housing? In Appropriations Committee.
