View From The Edge Of The Crowd by Lee Schell

Here we are five years after the start of the Covid-19 pandemic and not only can we not trust our national medical establishment because they lied to us all during these horrible years, we now know from what just *didn't* happen in the U.S. Senate, that we can't trust our scientific community either! We are finding out that as early as

2020 the German equivalent of our CIA knew without a doubt that the Covid virus, which leaked out of that bio-lab in Wuhan China and then spread all over the globe, was not a naturally occurring bat virus but

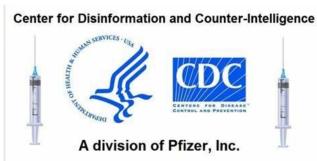

was an artificially engineered virus created in that lab. That information was known in high levels of our government and governments all over the world and yet it was deliberately withheld from us and today is just coming out. It gets even worse. Any intelligent person would, in the wake of the leaking of this viral experiment, immediately shut down that laboratory. Oh, no, that didn't happen. In fact the "Daily Mail" news outlet from England is reporting that the experiments on this artificially created menace continue in Wuhan, unabated. These kinds of doomsday experiments have got to stop!

Even worse news is coming out of the withdrawal of physician and former Florida congressman Dave Weldon's pomination to head up the Centers For Disease Control. The so-called news media are

nomination to head up the Centers For Disease Control. The so-called news media are dismissing the nixing of Weldon's nomination as a simple case of..."he just didn't have the votes to get the job". It's not that simple. He doesn't have the votes because as a doctor and when he was in Congress, he learned some really bad stuff that many senators on both sides of the political spectrum don't want the public...that's us...to know about. Weldon found out that there was a study done by the CDC that absolutely proved that a mercury-based preservative used in many vaccines, is the direct cause of the increase in autism in children who get these shots. This study pointing to the cause of autism was co-authored

by a researcher by the name of William Thompson. Thompson told Dave Weldon, way back in 2004, that he was ordered to delete pages of the study on the MMR vaccine, which pointed to the preservative causing autism. Thompson and his co-author, both men wanting to keep their jobs, recounted to Weldon the day they ripped these pages out of their report and threw them in the trash. In fact, the preservative, Thimerosol, which contains mercury, has reportedly been removed from childhood vaccines so what does that suggest? Despite the cleaning up of these shots, many senators, who rely on donations from big drug companies to get re-elected, don't want this story to come out because it would be devastating to these drug makers. Parents are still leary

of subjecting their kids to a potentially harmful substance and vaccine rates are way down. So, Weldon is out...but is he? I suggest Dave Weldon find any newspaper, TV or radio reporter who will talk to him, and get his story out there. William Thompson is willing to back Weldon up. We are being kept in the dark about a lot of important medical and scientific information and it's about time we, the voters who elect these politicians, get some straight answers and stop these pharmaceutical companies from hurting our kids!

PRESIDENT'S MESSAGE

TWENTY-FIVE YEARS! Since the year 2000, the Southern Monterey County Republican Women have actively worked hard to promote and support Republican candidates for office, locally, statewide and nationally. We are grateful to some of our founding members, Barba Oetting, Laurie Slaten, Ruth Lopes, Linda Sayler, and many long-standing members. Our thanks to those who have served two consecutive (2 yr.), terms as President, Dorothy Errea, Karen Leonhard, and Jeane Errea-Mills.

Our April 25th, Scholarship Luncheon is an amazing example of members who often cannot attend a meeting, but on that day, show up BIG TIME! Southern Monterey County residents of all walks of life and the business community believe in what we do in a non-partisan manner annually for senior high school scholarship

recipients. Let's do it again!

IN CASE YOU MISSED IT—Kathy Forgnone

Our speaker for the March general membership meeting was Dora Cary, a Romanian born engineer and graphic designer. Considering that she was born in a communist controlled country, her career accomplishments were incredible. Dora's life struggles and eventual immigration to the America, hearing of the starvation she and her family suffered, brought tears. She described her first visit to an American grocery store, and her disbelief at all the food and products she had never seen in abundance in one place. Thank you to SMCRWF member Janice Ramseier-Smith, who recommended Dora as a speaker. Several of our members know Dora through her talents as the owner of a quilt pattern business, Orange Dot Quilts in Paso Robles. We also welcomed new member Erin Janson with a packet containing our bylaws, Roster and a flag pin.
